Modern Garage Doors for **Contemporary Homes**

Up to 40% of your home's frontage is often occupied by the garage door – make it stand out with a truly unique, custom-made design. The Selections Series is made to order and handcrafted with precision. We dedicate the time and care to creating something exceptional. This collection offers an extensive range of styles and finishes, all crafted from the highest quality materials. It's your opportunity to enhance your home and showcase your personal style.

Create a Lasting Impression

Your Ideas Brought to Life

Whether it's the finish, the texture, or the colour, Gliderol's Selection Series allows you to customise your garage door to suit your own personal style. From a sleek smooth finish to a door that colour matches perfectly with the existing features.

Custom made with an Aluminum frame

Australian designed & made

Perfectly match architectural features

Premium grade materials

Three easy steps:

1. Pick Your Door Frame Style

Gliderol's Selections Series doors are available in seven standard frame styles, all of which can be tailored and customized to suit the style of your home.

2. Select Your Panel Type

With six standard panel material types to choose from, you're certain to find a combination to compliment the look and feel of your design.

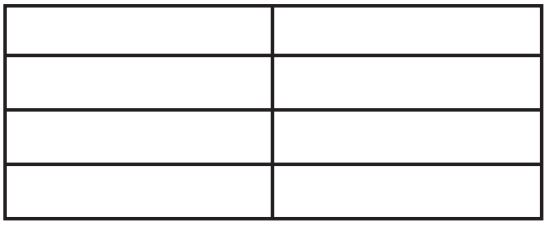
3. Choose Your Colour

Each panel type is available in a range of colours specifically selected to compliment your chosen style of door. Speak to your Gliderol representative today to view a colour sample.

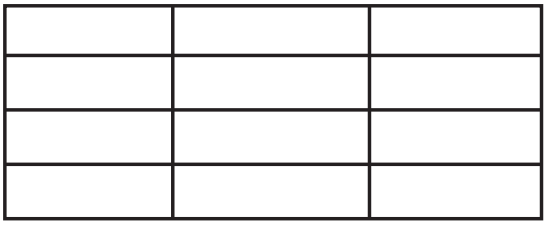
Pick your **door frame style.**

Choose from seven frame styles, all of which can be customised to complement your home design features

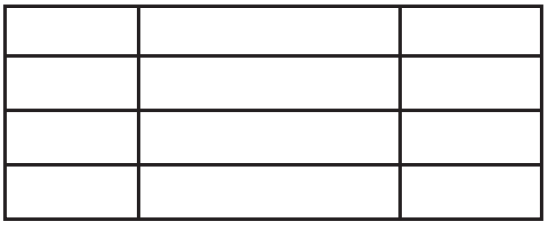
Baron



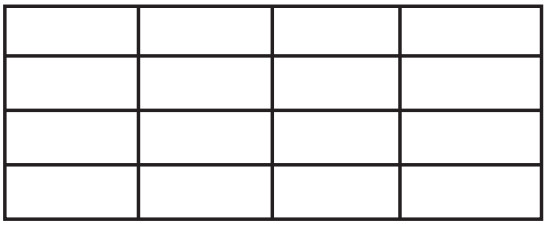
Caesar



Sultan



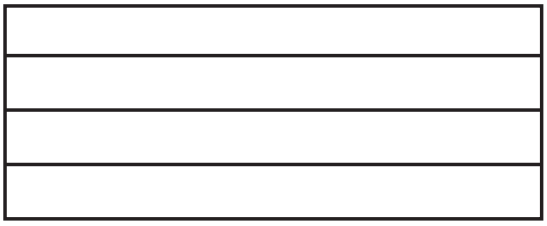
Sovereign



Royal Left (viewed from outside)

Royal Right (viewed from outside)

Regent



Frame **colour options**

The external portion of your door frame is available in a wide range of powdercoat colours that have been selected specifically to compliment the style and finish of the range. Please refer to the 'Selections Powdercoat Colour Chart' located on the Gliderol website.

Please refer to the 'Selections Powdercoat Colour Chart' located on the Gliderol website.

Select your **panel type.**

Choose from six premium panel materials to create your ideal door. These can be tailored to complement your frame style. You can also choose a combination of panels to create a more unique look.

Solid Sheet

Your choice of 3mm or 4.5mm Solid Acrylic Sheeting, offering a sleek and contemporary finish. Available in a wide range of colours, this style is ideal for garages that lack natural light.

Joins (required for lengths spanning over 2450mm) are tastefully concealed by aluminium framing in an annodised or powdercoated colour of your choice

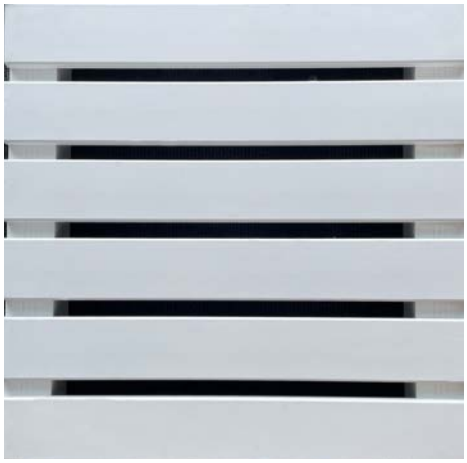
Standard Colours: Opal, Opaque, Grey Tint, Solid White & Clear (custom colours available on request)

Alumicomp

Aluminium Composite Material consisting of low density polyethylene core in between aluminium outer layers and is popular due to its versatility, contemporary appearance and longevity. Alumicomp offers a superior finish and is available in a wide range of colours.

Please note, architecturally specified and custom colours can be accomodated using the Alucobond® aluminium composite range.

Standard Colours: White, Silver, Metallic Grey, Black Matt & Black Gloss



Aluminium Slat 65:

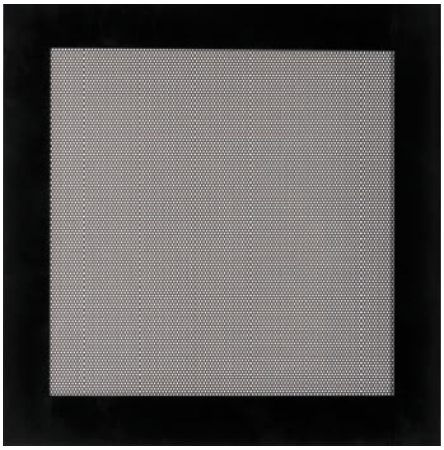
Made from aluminium slatting on a sturdy aluminium frame, particularly suited for garages that lack natural light or ventilation. This style is available in 65mm slatting, spaced at 20mm, and comes in a wide range of Dulux colurs to complement any style of home.

This style is available in a vertical or horizontal design.

Standard Colours: Refer to Selections Powdercoat Colour Chart for all options.

Commercial Solutions

Offering ventilation and a high level of security, Gliderol's Selections Series includes a number of panel options ideal for commercial and industrial applications, such as shopping centre and high-rise building car parks. Speak to your Gliderol sales representative about tailoring a custom solution for your next project.

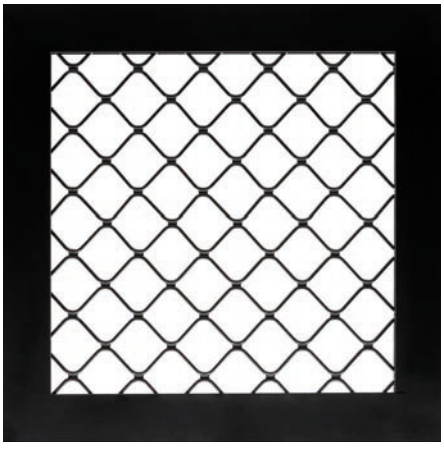


Perforated Mesh

A perforated insert option made from satin black mesh attached to a rigid aluminium frame. This can add natural light and airflow to your garage.

Bar Panel:

Bar Panel sectional doors provides visibility, ventilation and peace of mind security. Ideally suited for commercial applications such as shopping centre and high-rise building car parks



Diamond Mesh

Starting with our unique aluminium frame, diamond mesh is added to create a garage door ideal for areas requiring ventilation & light whilst maintaining privacy and security.

All commercial solutions are available in a black powdercoat as standard or refer to the Selections Powdercoat Colour Chart for more customised options.
